

# Roll Back the Years...

## With revolutionary technology.

*The dermaroller* uses skin needling to stimulate collagen regeneration.

If your skin suffers from scarring, wrinkles, open-pores, pigmentation, stretch marks.... The solution is the *dermaroller*.

### What is the *dermaroller* ?

The *dermaroller* is a cylindrical shaped drum studded with very fine needles. It is a medical device used to stimulate skin cell production. This procedure is called collagen induction therapy.

### What is the difference to other skin rejuvenating techniques?

In contrast ablative techniques like laser, the *dermaroller* stimulates new tissue formation- it acts constructively and the skin remains intact. The *dermaroller* significantly improves scars and skin texture.

Reverses the signs of aging.  
80% reported improvement in trials.

### How is the procedure performed and does it hurt?

The skin is cleaned and a numbing cream is applied to the skin. The *dermaroller* is rolled along the skin and each part is needled about 15 to 20 times.

### How many treatments will I need?

Collagen induction therapy recommended three treatments, six weeks in between.

- Pigmentation
- Wrinkles
- Open-pores
- Acne scarring
- Stretch marks

### How long do the results last?

It depends on the age of your skin and the amount of photodamage. Skin rejuvenation is a dynamic process, and natural expression lines (lines caused by laughing, smiling,

frowning and crying) will gradually return in the course of time. Since we can't stop the aging process, we recommend follow up treatments one per year.

## The Five amazing benefits of your dermaroller treatment

- **Benefit 1**  
Best results will be seen eight weeks after your course.
- **Benefit 2**  
The collagen stimulation process will continue even after the treatment has stopped.
- **Benefit 3**  
You will notice an immediate improvement in skin tone and texture. It will feel soft and “plumed up”.
- **Benefit 4**  
Your make-up will go on better because your treatment has smooth... the surface.
- **Benefit 5**  
Your skin will feel naturally firmer.

### Valued at over \$4000

A complete course of three *dermaroller* treatments  
These treatments include three new surgically packed rollers  
Plus numbing cream.

**Valued at \$1850**

**Plus free** a complete course of unlimited VPL light treatments. These treatments are completely non-invasive and painless, and take less than 30 minutes at a time

**Valued at \$1200**

**Plus free** 3 ultra-sonophoresis treatment uses ultra-sound technology – low frequency, to achieve a penetration rate that far exceeds what can be achieved by the hands alone.

**Valued at \$240**
